

## CHS SAFETY DATA SHEET 5700 PVC

Low VOC SOLVENT CEMENT FOR PVC PLASTIC PIPE

SECTION 1 – PRODUCT & COMPANY IDENTIFICATION

 PRODUCT NAME: PRO-WELD 5700 Low VOC Solvent Cement for PVC Plastic Pipe
 PRODUCT

 SUPPLIER: Mighty Plumbing Solutions Adhesive LLC.
 ADDRESS:

 EMERGENCY: Transportation: CHEMTEL Tel. 800.255-3924, 813-248-0585 (International)
 MEDICAL

PRODUCT USE: Solvent Cement for PVC Plastic Pipe ADDRESS: 227 Pine Meadow Court, North Brunswick, NJ 08902, U.S.A. MEDICAL: Tel. 800.451.8346, 760.602.8703 3E Company (International)

#### SECTION 2 – HAZARDIOUS IDENTIFICATION **GHS CLASSIFICATION:** Health Acute Toxicity: Category 4 Skin Irritation: Category 3 Skin Sensitization: NO Eve: Category 2 Environmental Acute Toxicity: None Known Chronic Toxicity: None Known Physical Flammable Liquid: Category 2

Hazard Statements

H225: Highly flammable liquid and vapor H319: Causes serious eye irritation H335: May cause respiratory irritation

H336: May cause drowsiness or dizziness

H351: Suspected of causing cancer EUH019: May form explosive peroxides SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

WHMIS CLASSIFICATION: CLASS B, DIVISION 2 CLASS D, DIVISION 1B

**Precautionary Statements** 

P210: Keep away from heat/sparks/open flames/hot surfaces – No smoking
P261: Avoid breathing dust/fume/gas/mist/vapors/spray
P280: Wear protective gloves/protective clothing/eye protection/face protection
P337+P313: Get medical advice/attention
P403+P233: Store in a well ventilated place. Keep container tightly closed
P501: Dispose of contents/container in accordance with local regulation

| INGREDIENTS               | CAS#     | EINECS #  | REACH<br>Pre-registration Number | CONCENTRATION<br>% by Weight |
|---------------------------|----------|-----------|----------------------------------|------------------------------|
| Tetrahydrofuran (THF)     | 109-99-9 | 203-726-8 | 05-2116297729-22-0000            | 10-30                        |
| Methyl Ethyl Ketone (MEK) | 78-93-3  | 201-159-0 | 05-2116297728-24-0000            | 25 - 40                      |
| Cyclohexanone             | 108-94-1 | 203-631-1 | 05-2116297718-25-0000            | 20 - 30                      |
| Acetone                   | 67-64-1  | 200-662-2 | 05-2116297713-35-0000            | 5 - 15                       |

All of the constituents of this adhesive product are listed on the TSCA inventory of chemical substances maintained by the US EPA, or are exempt from that listing. \* Indicates this chemical is subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (40CFR372).

| # indicates that this chemical is | s found on Proposition 65's List of chemicals known to the State of California to cause cancer or reproductive toxicity.                          |
|-----------------------------------|---|
| SECTION 4 – FIRST AID MEASU       | RES   |
| Contact with eyes:                | Flush eyes immediately with plenty of water for 15 minutes and seek medical advice immediately.   |
| Skin contact:                     | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. If irritation develops, seek medical advice.                    |
| Inhalation:                       | Remove to fresh air. If breathing is stopped, give artificial respiration. If breathing is difficult, give oxygen. Seek medical advice.           |
| Ingestion:                        | Rinse mouth with water. Give 1 or 2 glasses of water or milk to dilute. Do not induce vomiting. Seek medical advice immediately.                  |
| Likely Routes of Exposure:        | Inhalation, Eye and Skin Contact  |
| Acute symptoms and effects:       |   |
| Inhalation:                       | Severe overexposure may result in nausea, dizziness, headache. Can cause drowsiness, irritation of eyes and nasal passages.                       |
| Eye Contact:                      | Vapors slightly uncomfortable. Overexposure may result in severe eye injury with corneal or conjunctival inflammation on contact with the liquid. |
| Skin Contact:                     | Liquid contact may remove natural skin oils resulting in skin irritation. Dermatitis may occur with prolonged contact.                            |
| Ingestion:                        | May cause nausea, vomiting, diarrhea and mental sluggishness.   |
| Chronic (long-term) effects:      | Category 2 Carcinogen   |
| SECTION 5 – FIREFIGHTING ME       |   |

| Suitable Extinguishing Media: Dry chemical powder, carbon dioxide gas, foam, Halon, water fog.                 |              | HMIS | NFPA | 0-Minimal  |
|--|--------------|------|------|------------|
| Unsuitable Extinguishing Media: Water spray or stream.   | Health       | 2    | 2    | 1-Slight   |
| Exposure Hazards: Inhalation and dermal contact  | Flammability | 3    | 3    | 2-Moderate |
| Combustion Products: Oxides of carbon and smoke  | Reactivity   | 0    | 0    | 3-Serious  |
| Protection for Fire fighters: Self-contained breathing apparatus or full-face positive pressure airline masks. | PPE          | В    |      | 4-Severe   |
| SECTION 6 - ACCIDENTAL RELEASE MEASURES  |              |      |      |            |

Environmental Precautions: Methods for Cleaning up: Materials not to be used for clean up:

Personal precautions:

Keep away from heat, sparks and open flame. Provide sufficient ventilation, use explosion-proof exhaust ventilation equipment or wear suitable respiratory protective equipment. Prevent contact with skin or eyes (see section 8). Prevent product or liquids contaminated with product from entering sewers, drains, soil or open water course. Clean up with sand or other inert absorbent material. Transfer to a closable steel vessel. Aluminium or plastic containers

|---------|----------|-----------|--------|
|         |          |           |        |

Handling: Storage: Avoid breathing of vapor, avoid contact with eyes, skin and clothing. Keep away from ignition sources, use only electrically grounded handling equipment and ensure adequate ventilation/fume exhaust hoods. Do not eat, drink or smoke while handling.

Store in ventilated room or shade below 44°C (110°F) and away from direct sunlight. Keep away from ignition sources and incompatible materials: caustics, ammonia, inorganic acids, chlorinated compounds, strong oxidizers and isocyanates. Follow all precautionary information on container label, product bulletins and solvent cementing literature.

| Eye Protection:  | Avoid contact with e<br>etc. as may be appro |  |                   | oggles, face shi | eld, safety g | lasses (spectacle   | es) with brow    | guards and sid      | e shields,        |
| Skin Protection:   | Prevent contact with                         | Prevent contact with the skin as much as possible. Butyl rubber gloves should be used for frequent immersion. Use of solvent-resistant |                   |                  |               | -resistant          |                  |                     |                   |

Prevent contact with the skin as much as possible. Butyl rubber gloves should be used for frequent immersion. Use of solvent-resistant gloves or solvent-resistant barrier cream should provide adequate protection when normal adhesive application practices and procedures are used for making structural bonds.

Respiratory Protection: Prevent inhalation of the solvents. Use in a well-ventilated room. Open doors and/or windows to ensure airflow and air changes. Use local exhaust ventilation to remove airborne contaminants from employee breathing zone and to keep contaminants below levels listed above. With normal use, the Exposure Limit Value will not usually be reached. When limits approached, use respiratory protection equipment.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

| Appearance:                | Clear, regular syrupy liquid  |                        |                                     |  |
|----------------------------|---|------------------------|-------------------------------------|--|
| Odor:                      | Ketone  | Odor Threshold:        | 0.88 ppm (Cyclohexanone)            |  |
| pH:                        | Not Applicable  |                        |                                     |  |
| Melting/Freezing Point:    | -108.5°C (-163.3°F) Based on first melting component: THF                                   | Boiling Range:         | 56°C (133°F) to 156°C (313°F)       |  |
| Boiling Point:             | 56°C (133°F) Based on first boiling component: Acetone                                      | Evaporation Rate:      | >1.0 (BUAC = 1)                     |  |
| Flash Point:               | -20°C (-4°F) T.C.C. based on Acetone  | Flammability:          | Category 2                          |  |
| Specific Gravity:          | 0.907 @23°C ( 73°F)   | Flammability Limits:   | LEL: 1.1% based on Cyclohexanone    |  |
| Solubility:                | Solvent portion soluble in water. Resin portion separates out.                              |                        | UEL: 12.8% based on Acetone         |  |
| Partition Coefficient n-   | Not Available   | Vapor Pressure:        | 190 mm Hg @ 20°C (68°F): Acetone    |  |
| octanol/water:             | Not Available   | vapor riessure.        | 150 min rig @ 20 C (08 r ). Acetone |  |
| Auto-ignition Temperature: | 321°C (610°F) based on THF  | Vapor Density:         | > 2.0 (Air = 1)                     |  |
| Decomposition Temperature: | Not Applicable  | Other Data: Viscosity: | Regular bodied                      |  |
| VOC Content:               | When applied as directed, per SCAQMD Rule 1168, Test Method 316A,VOC content is: < 510 g/l. |                        |                                     |  |

| SECTION 10 - STABILITY AND REACTIVITY                                      |                       |                                |                              |                            |                      |  |
|--|-----------------------|--------------------------------|------------------------------|----------------------------|----------------------|--|
| Stability: Stable  |                       |                                |                              |                            |                      |  |
| Hazardous decomposition products: None in normal use. When forced to burn, |                       |                                | burn, this product gives off | oxides of carbon and smoke | 2.                   |  |
| Conditions to avoid:   | Кеер ам               | vay from heat, sparks, open fl | ame and other ignition sour  | rces.                      |                      |  |
